FULL STACK DEVELOPER

Enthusiastic Full Stack Developer with 2+ years of industry experience. Proficient in front-end technologies, back-end development, and dedicated to delivering high-quality solutions. A collaborative team player with strong communication skills, passionate about overcoming challenges.

KEY SKILLS:

- Front-End Development: HTML5, CSS3, SASS, responsive web design, JavaScript, React.js, Redux, Angular 13, and Ionic.
- Back-End Technologies: Node.JS, Express, MongoDB.
- Version Control & Collaboration: Bash terminal, GIT, GitHub, GitLab, YouTrack and Jira.
- Build Tools & Package Managers: Webpack, Parcel, NPM, and Yarn.
- Design & Prototyping: Figma, Adobe XD.

PROFESSIONAL EXPERIENCE:

Front End Developer | Upwork

Jan 2024 – Present

- Optimized client's landing webpage through the implementation of semantic HTML, Tailwind CSS, and React.JS; resulted in a 60% reduction in bounce rate and a 30% increase in average session duration, leading to improved user engagement and conversion.

Front End Developer | Advantiss Ltd., Sumy, Ukraine

Feb 2022 - Oct 2022

- Spearheaded a transformative project by leading the overhaul process, addressing 100+ bugs, and incorporating cutting-edge features, resulting in a 40% increase in user engagement and a 25% decrease in customer support tickets.
- Utilized YouTrack, and GitLab to optimize project workflows and track progress by 30%.
- Collaborated seamlessly in an agile environment, actively engaging in cross-functional team sprints and participating in 100% of daily scrums.
- Contributed as an engineer in 150+ tickets estimations using Jira and Planning poker.
- Mastered Angular within a week from scratch, reducing project timelines by 20 days.
- Demonstrated rapid learning and problem-solving skills by successfully executing the OAuth 2.0 registration flow.
- Revamped the design of a live code web application using Flexbox, Grid, HTML, and Sass, achieving a 100% pixel-perfect match to the Adobe XD mockup. This comprehensive redesign also included cross-

platform adaptation for tablets and phones, with thorough testing conducted on real devices to ensure optimal performance and user experience.

- Independently crafted the frontend component, following the Figma mockup, for a novel streaming web app project, transforming it from inception to a fully operational MVP in just one month. Leveraged Angular and Bootstrap for implementation, covering the development of forms, validation processes, and seamless API integration from the server.
- Refactored and resolved bugs in a money-raising web application based on the Ionic/Angular framework, resulting in a 90% reduction in bugs and an improved user experience.

Junior Full Stack Developer | GoIT, Kyiv, Ukraine **Apr 2021 - Apr 2022**

- Worked in an Agile team using SCRUM methodologies on the following 4 projects:
 1. WebStudio - landing page - technologies stack semantic HTML, CSS3, adaptive markup. Role: front end developer.
 2. Ice-Cream - landing page - technologies stack HTML5, SASS, JavaScript, Parcel. Roles: team leader, code reviewer.
