PROFESSIONAL SUMMARY

Dynamic and results driven MERN Full Stack Developer with 2 years of hands-on experience in web development. Skilled in both front-end and back-end technologies, with a strong foundation in building responsive and user-friendly web applications and a craving for clean, efficient code. Dedicated to delivering exceptional results and passionate about continuous learning and growth. Proficient in HTML5, CSS3, JavaScript, React.js, Node.js, Express.js, and MongoDB. Proven ability to collaborate effectively in cross-functional agile teams and overcome challenges to meet project objectives. Eager to leverage skills and experience to contribute to innovative projects and drive business success in an entry-level role.

KEY SKILLS

Semantic markup, responsive design, Sass, Tailwind, Bootstrap, Styled Components, TypeScript, React Hooks, Redux, Angular, Ionic, REST API, CRUD, Firebase, OAuth 2.0, GIT, GitHub, GitLab, Bitbucket, Jira, Figma, Adobe XD.

PROFESSIONAL EXPERIENCE

Front End Developer | Upwork
Jan 2024 – Present
- Implemented semantic HTML, Tailwind CSS, and React.js to optimize client landing pages, resulting in a 60% reduction in bounce rate and a 30% increase in average session duration.

Front End Developer | AdvantiSS, Sumy, Ukraine
Feb 2022 - Oct 2022
- Spearheaded the revamping of existing projects and implementing new features using cutting-edge technologies resulting in a 40% increase in user engagement.
- Cut 25% of customer support tickets by leading the projects overhaul addressing 100+ bugs and updating unit tests.
- Utilized YouTrack and GitLab to optimize project workflows and track progress, improving efficiency by 30%.
- Transformed design of the Live Code Club web application by implementing Sass, Flexbox and Grid technologies, achieving 100% pixel-perfect match to Adobe XD mockup and cross-platform adaptation.
- Collaborated seamlessly in an agile environment, actively engaging in cross-functional team sprints and participating in 100% of daily scrums.
- Contributed as an engineer in 150+ tickets estimations using Jira and Planning poker.
- Demonstrated rapid learning and problem-solving skills, mastering Angular within a week and successfully executing OAuth 2.0 registration flow.
- Independently crafted the front-end part for a streaming web project from inception to a fully operational MVP in just 1 month. Leveraged Angular and Bootstrap for the development of forms, validation processes, and seamless API integration.

Junior Full Stack Developer | GoIT, Kyiv, Ukraine
Apr 2021 - Apr 2022
- Worked in Agile team environment on multiple landing page projects, timely performing all tasks.
- Arranged and distributed 200+ tasks using Trello, conducted 30+ stand-ups and 10+ retrospectives being a SCRUM master at the movies database project.
- Effectively supervised a team responsible for developing a finance web application, fostering a collaborative atmosphere that facilitated timely project completion and performed project presentation.
- Reviewed 100+ pull requests, managed 20+ branches merging and deployed 5+ projects on GitHub and Heroku.
- Utilized React and Redux developer tools to cut bugfix times by 30%.
