SUMMARY

Full Stack Developer with 4 years of experience in front-end and back-end development. Adept at using JavaScript, React.js, Redux, Node.js, Express.js, TypeScript, MongoDB, HTML5 and CSS3 to create dynamic, responsive web applications targeted for desktop, laptop, tablet and mobile devices. Demonstrated success in optimizing client landing pages, enhancing user engagement, and leading project overhauls to improve efficiency. Experienced in working within agile environments, collaborating with cross-functional teams, and managing projects from inception to deployment. Strong problem-solving abilities, rapid learning skills, and a commitment to delivering high-quality, pixel-perfect applications.

KEY SKILLS

HTML5, CSS3, JavaScript, React.js, Node.js, Express.js, and MongoDB, SQL, Semantic markup, responsive design, SEO principles, Sass, Tailwind, Bootstrap, Styled Components, TypeScript, React Hooks, Redux, Angular, Ionic, familiarity with Next.js, REST API, CRUD, Postman, Firebase, JSON Web Tokens, OAuth 2.0, GIT, GitHub, GitLab, Bitbucket, Jira, Figma, Adobe XD, 3ds Max.

PROFESSIONAL EXPERIENCE

Full Stack Developer | Freelance, Salt Lake City, UT

Sep 2023 – Present

- Implemented **semantic HTML**, **Tailwind CSS**, and **React.js** to optimize client landing pages, resulting in a 60% reduction in bounce rate and a 30% increase in average session duration.
- Developed interactive web components using **React Hooks** and **Redux** for state management, enhancing the user experience and maintaining clean code architecture.
- Integrated **RESTful APIs** and **Firebase** for real-time data synchronization, ensuring seamless data flow and improving application performance.
- Utilized **GIT** and **GitHub** for version control, collaborating with dev team and managing codebase efficiently.
- Collaborated with stake holders, PM, BA to understand business requirements and estimate feature development time.
- Applied responsive design principles and **CSS3/Sass** for cross-device compatibility, achieving a consistent look and feel across various screen sizes.
- Conducted code reviews and implemented best practices for clean, maintainable, and efficient code, leading to a 20% reduction in bug reports.

Front End Developer | Freelance, Kitchener, Ontario, Canada

Mar 2023 – Aug 2023

- Developed and maintained dynamic web applications using **Angular** and **TypeScript**, ensuring high performance and scalability.
- Implemented complex **UI** components and forms with **Bootstrap**, enhancing user experience with responsive and visually appealing designs.
- Utilized **JavaScript** to create interactive features and seamless **API** integrations, improving functionality and user engagement across the applications.

Front End Developer | AdvantiSS, Sumy, Ukraine

Feb 2022 - Oct 2022

- Revamped existing projects and implemented new features using cutting-edge technologies such as **React.js** and **Angular** resulting in a 40% increase in user engagement.
- Cut 25% of customer support tickets by leading the projects overhaul addressing 100+ bugs and updating unit tests.
- Utilized **YouTrack** and **GitLab** to optimize project workflows and track progress, improving efficiency by 30%.
- Transformed design of the Live Code Club web application by implementing **Sass**, **Flexbox** and **Grid** technologies, achieving 100% **pixel-perfect** match to **Adobe XD** mockup and cross-platform adaptation.

- Collaborated seamlessly in an **agile environment**, actively engaging in cross-functional team sprints and participating in 100% of daily scrums.
- Contributed as an engineer in 150+ tickets estimations using **Jira** and **Planning poker**.
- Demonstrated rapid learning and problem-solving skills, mastering **Angular** within a week and successfully executing **OAuth 2.0** registration flow.
- Independently crafted the front-end part for a streaming web project following **Figma** mockup from inception to a fully operational MVP in just 1 month. Leveraged **Angular** and **Bootstrap** for the development of forms, validation processes, and seamless **API** integration.

Junior Full Stack Developer | GoIT, Kyiv, Ukraine

Apr 2020 - Feb 2022

- Worked in **Agile** team environment on multiple landing page projects, timely performing all tasks.
- Arranged and distributed 200+ tasks using **Trello**, conducted 30+ stand-ups and 10+ retrospectives being a **SCRUM** master at the movies database project.
- Taking role of a team leader effectively supervised a team responsible for developing a finance web application, fostering a collaborative atmosphere that facilitated timely project completion and performed project presentation.
- Reviewed 100+ pull requests, managed 20+ branches merging and deployed 5+ projects on **GitHub** and **Heroku**.
- Utilized **React** and **Redux** developer tools to cut bugfix times by 30%.

EDUCATION

MERN Full Stack Developer Courses, Kyiv, Ukraine

- Mastered technologies including HTML5, CSS3, SASS, GIT, NPM, JS, React.js, Node.js, and MongoDB.
- Applied Agile and SCRUM methodologies.

Sumy State University, Sumy, Ukraine | Master of Arts in English/German

- Acquired expertise as an English and German language teacher/translator.
- Expanded knowledge in philosophy, physics, and computer science.

CERTIFICATIONS

- IBM | Developing Websites and Front-Ends with Bootstrap.
- TestDome | React, ranking in the top 10%.
- CyberBionic Systematics / ITVDN | GIT, HTML5, CSS3, JS ES6.
